

Experience That Matters

Thanks to our on-site full-time physicians, Charles E. Smith Life Communities continues to be the provider of choice in the Washington Metropolitan area. Our medical team provides quality medical care to residents and patients across campus.

The medical department at Charles E. Smith Life Communities is unique in that our physicians are full-time team members on campus and are dedicated to your needs. With extensive training and certifications in medicine for older adults, our team is always mindful of each person's preferences for care, and we focus on residents and patients with empathy, compassion and skill.

We are available on-site to serve residents at Hebrew Home of Greater Washington. Hirsh Health Center patients at Cohen-Rosen House, Landow House, Revitz House and Ring House have access to our medical team when registered with the CESLC medical practice. Specialists visit our campus for your convenience. From wellness to post-acute recovery to palliative care, we are here for you. For more information about our medical team, please contact us at **301-770-8448**.
